

Gas Barrier Systems

- ✓ Protect new buildings from unwanted gases.
- ✓ Controls gas build up from contaminated sites.
- ✓ Eliminate the risk of gas and moisture penetrating buildings.

Suitable for:

- Residential housing.
- Industrial warehousing.
- Commercial and retail buildings.

Aspect Environmental Lining Ltd supply, install and test geosynthetic materials to provide an impervious membrane on the construction site.

AEL gas barrier membranes use a combination of geocomposite drainage nets, Polyethylene membranes, Geotextile protection cloth and gas venting pipes.

Gas Barrier Membranes

Installation of commercial gas barrier membrane

Installation of Industrial Warehouse Gas Barrier Membrane.
