

Pipe Boot Penetrations

- ✓ Cost effective method of sealing liner to penetrations.
- ✓ Fabricated to suit a variety of sizes.
- ✓ Effective method of sealing dissimilar materials.

Typical Applications:

- Pond Inlets and Outlets.
- Vents and Stand Pipes.
- Drain pipes.
- Tell-tale pipes.

AEL fabricate, install and test pipe boot penetrations on site.

AEL pipe boot penetrations are sealed to pipes utilizing rubber gaskets and stainless steel bands.

Extrusion welds on AEL pipe boot penetrations are 100% non-destructively spark tested.
